AV Communication Review Index

Volume 18, 1970

A

Abt, Clark C., Serious games. *Book reviewed by* Kenneth N. Fishell, *4* 479-480

The Age of Discontinuity, Peter F. Drucker. *Book reviewed by* Frederick G. Knirk, *1* 100-103

Affection and cognition in transaction and the mapping of cultural space, *article,* Warren D. Stevens, *4* 440-445

AERA monograph series on curriculum evaluation: Perspectives of curriculum evaluation, Ralph W. Tyler, Robert M. Gagne, and Michael Scriven. *Book reviewed by* Donald J. Cunningham, *3* 337-342

Administrative Technology and the School Executive, Stephen J. Knezevich, ed. *Book reviewed by* Desmond L. Cook, *3* 333-335

Allen, William H. *See* James, H. Thomas

Allen, William H. and Royd Weintraub, The motion variables in film presentations, *research abstract, 1* 118

Alternate versions of overhead transparency projectuals designed to teach elementary statistical concepts, *article,* Galen L. Pearce, *1* 65-71

Alvarado, Victor. *See* Travers, Robert M. W.

An analysis of certain elements of an audio-tape approach to instruction, Ronald Ernest Bell, *research abstract, 2* 223

The analysis of communication content: developments in scientific theories and computer techniques, George Gerbner, Ole R. Holsti, Klaus Krippendorff, William J. Paisley, Philip J. Stone, eds. *Book reviewed by* Harold D. Lasswell, *4* 461-467

The analysis of essays by computer, Ellis B. Page and Dieter H. Paulus, *research abstract 1* 120-121

The analysis of eye-movement recordings from samples of underachieving secondary and primary students, *article,* C. Ann Brickner, *4* 414-424

Analysis of the interaction of student characteristics with method in micro-teaching, Katherine Chavers and others, *research abstract, 4* 494-495

An application of Guilford's structure of intellect to programmed instruction, Robert L. Baker, *research abstract, 2* 226-227

Aquino, Charles C., Teacher attitudes toward audiovisual instruction as they are influenced by selected factors within teaching environments, *article, 2* 187-195

Arlen, Michael J., Living-room war. *Book reviewed by* Harold Mendelsohn, *4* 470-473

Attitudes. *See* Motivation

Audiotape

articles: Retention of prose material as a function of rate of presentation and difficulty of material, *3* 291-299

research abstracts: An analysis of certain elements of an audio-tape approach to instruction, *2* 223; The effect of mode of feedback in micro-teaching, *4* 494; The effectiveness and efficiency of two types of simulation as functions of level of elementary education training, *4* 495; An experimental study of the degree of affective response elicited by several mediated and non-mediated instructional methods, *3* 352; The influence of

tape-recorded listening lessons and "listening motivation" bulletins upon the listening ability of high school students, *2* 223-224

B

Baker, Eva L., Generalizability of rules for empirical revision, *article, 3* 300-305

Baker, Robert L., An application of Guilford's structure of intellect to programmed instruction, *research abstract, 2* 226-227

Bare, Carole E., The relationship between man-machine attitudes and performance, *research abstract, 4* 489-490

Barker, Larry L. *See* Kibler, Robert J.

A basic reference shelf on programmed instruction, Robert Glaser and Mary Louise Marino, *research abstract, 2* 228-229

Beatty, Walcott H., Improving educational assessment & an inventory of measures of affective behavior. *Book reviewed by* Paul W. F. Witt, *4* 455-461

Beets, Mary M., Instructional television: inquiry method of instruction in fifth and sixth grade science, *research abstract, 2* 222

Behavioral objectives and instruction, Robert J. Kibler, Larry L. Barker, and David T. Miles. *Book reviewed by* Paul W. F. Witt, *4* 455-461

Beliefs, attitudes, and values: a theory of organization and change, Milton Rokeach. *Book reviewed by* W. Howard Levie, *2* 202-205

Bell, Ronald Ernest, An analysis of certain elements of an audio-tape approach to instruction, *research abstract, 2* 223

Benson, Charles S. *See* James, H. Thomas

Benton, Charles W., Wayne K. Howell, Hugh C. Oppenheimer, and Henry H. Urrows, Television in urban education: its application to major educational problems in sixteen cities. *Book reviewed by* John S. Clayton, *1* 88-91

Bergeson, Clarence O., *book reviewer, 2* 213-215

Bibliographies

research abstracts: A basic reference shelf on programmed instruction, *2* 228-229; The problem of privacy in the computer age: an annotated bibliography, *4* 492

Blount, Nathan S. and others, The effect of a study of grammar on the writing of eighth-grade students, *research abstract, 4* 491

Boocock, Sarane S. and E. O. Schild, Simulation games in learning. *Book reviewed by* Kenneth N. Fishell, *4* 479-480

Books Reviewed

Administrative technology and the school executive, *3* 333-335

AERA monograph series on curriculum evaluation: perspectives of curriculum evaluation, *3* 337-342

The age of discontinuity, *1* 100-103

The analysis of communication content: developments in scientific theories and computer techniques, *4* 461-467

Behavioral objectives and instruction, *4* 455-461

Beliefs, attitudes, and values: a theory of organization and change, *2* 202-205

Broadcasting and bargaining: Labor relations in radio and television, *4* 473-476

The career of the academic librarian, *2* 213-215

Concepts of teaching: philosophical essays, *4* 455-461

The conquest of nature: technology and its consequences, *2* 198-202

The contribution of behavioral science to instructional technology, a resource book for media specialists, *1* 96-100

The development of educational broadcasting in Japan, *2* 210-211

Educational evaluation: new roles, new means; the sixty-eighth yearbook of the National Society for the Study of Education, part II, *2* 215-219

The electronic gospel: religion and media, *1* 106-109

The emergence of film art, *1* 110-112

Evaluation activities of curriculum projects: a starting point, *3* 337-342

Film in the Third Reich, *4* 476-479

A guide to computer literature: an introductory survey of the sources of information, *1* 115-117

High school, *film review, 2* 212-213

How to talk back to your television set, *4* 470-473

Improving educational assessment & an inventory of measures of affective behavior, *4* 455-461
Individualized instruction: a manual for administrators, *3* 336-337
Information theory and esthetic perception, *1* 104-106
Instructional objectives: an analysis of emerging issues, *3* 337-342
Instructional process and media innovation, *3* 342-345
Instructional technology: a book of readings, *4* 481-483
An introduction to operations research, *3* 327-333
Learning research and school subjects, *1* 96-100
Living-room war, *4* 470-473
Machina ex deo: essays in the dynamism of western culture, *2* 198-202
Mass communications and American empire, *1* 113-115
The new politics: the expanding technology of political manipulation, *2* 207-210
Programmed learning and the language laboratory, *2* 219-220
Radio, television and American politics, *2* 207-210
Research for tomorrow's schools: disciplined inquiry for education, *2* 205-207
Resistance to innovation in higher education, *1* 91-96
The schools and the challenge of innovation, *4* 483-484
The selling of the president 1968, *2* 207-210
Serious games, *4* 479-480
Simulation games in learning, *4* 479-480
The systems approach, *3* 327-333
Systems engineering of education, IV: systems analysis and synthesis applied quantitively to create an instructional system, *3* 327-333
Technology and the curriculum, *4* 481-483
Television in urban education: its application to major educational problems in sixteen cities, *1* 88-91
To improve learning, *3* 306-326
Toward a significant difference: final report of the National Project for the Improvement of Televised Instruction, *1* 88-91
The unfinished journey: issues in American education, *2* 205-207
Violence and the mass media, *4* 467-469

Bolvin, John O., The use of field data for improving IPI materials and procedures, *research abstract, 1* 119
Bowdidge, John Stephens, The influence of tape-recorded listening lessons and "listening motivation" bulletins upon the ability of high school students, *research abstract, 2* 223-224
Boyce, G. *See* Sime, M.
Brademas, John. *Review of* To improve learning, *by* the Commission on Instructional Technology, *3* 322-326
Brickner, C. Ann, The analysis of eye-movement recordings from samples of underachieving secondary and primary students, *article, 4* 414-424
Briefly Noted, *3* 346-349, *4* 485-487
Briggs, Leslie J. *Review of* To improve learning, *by* the Commission on Instructional Technology, *3* 313-314
Broadcasting and bargaining: Labor relations in radio and television, Allen E. Koenig, ed. *Book reviewed by* Donald F. Mikes, *4* 473-476
Bruha, John J., Stimulus approach tendencies of learners as a factor in instructional methods, *research abstract, 3* 351-352
Bung, Klaus, Programmed learning and the language laboratory. *Book reviewed by* Franz Frederick, *2* 219-220

C

Calder, Clarence R., Jr., A comparison of four methods of teaching psychomotor activities to elementary school children from varying socioeconomic levels, *article 1* 25-31
Campbell, Roald F. *See* James H. Thomas
The career of the academic librarian, Perry D. Morrison. *Book reviewed by* Clarence O. Bergeson, *2* 213-215
Carter, Clyde N. *See* James, H. Thomas
Chart-recorded capillary pulse pressure measurement as an unobtrusive means of detecting unspecified frame-specific flaws in programed instruction sequences: an experimental study, Lawrence E. Fraley, Jr., *research abstract, 3* 351
Chavers, Katherine, Analysis of the interaction of student characteristics with method in microteaching, *research abstract, 4* 494-495

Chester, Edward W., Radio, television and American politics. *Book reviewed by* G. Cleveland Wilhoit, *2* 207-210

Childs, John W. *See* Knirk, Frederick G.

Communication and communication theory
articles: Affection and cognition in transaction and the mapping of cultural space, *4* 440-445; Communication in education in a revolutionary age, *4* 363-378; Formation, information, and instruction in culture mediation, *2* 180-186
research abstracts: Encoding ability in teacher-student communication games, *1* 121; A study of the effects on pupil achievement of certain audio and visual presentation sequences, *1* 121-122

Communication in education in a revolutionary age, *article,* Charles F. Hoban, *4* 363-378

Comparative effectiveness of three language laboratory methods using a new equipment system, *article,* Toshiko Chomei and Robert Houlihan, *2* 160-168

Comparative effects of ability and presentation mode in computer-assisted instruction and programed instruction, *article,* Walter Dick and Raymond Latta, *1* 33-45

A comparison of four methods of teaching psychomotor activities to elementary school children from varying socioeconomic levels, *article,* Clarence R. Calder, Jr., *1* 25-31

Compressed speech
article: Retention of prose material as a function of rate of presentation and difficulty of material, *3* 291-299

Chomei, Toshiko, and Robert Houlihan, Comparative effectiveness of three language laboratory methods using a new equipment system, *article, 2* 160-168

Clayton, John S., *book reviewer, 1* 88-91

Commentary variations: level of verbalization, personal reference, and phase relations in instructional films on perceptual-motor tasks, John V. Zukerman, *research abstract, 2* 224

Commission on Instructional Technology. To improve learning. *Special section; reviews by* Donald P. Ely, Earl Funderburk, Leslie J. Briggs, David Engler, John E. Dietrich and Robert H. Davis, John Brademas, *3* 306-326

Computer-assisted instruction
article: Comparative effects of ability and presentation mode in computer-assisted instruction and program instruction, *1* 33-44
research abstract: Computer systems for teaching complex concepts, *4* 490-491; Development and evaluation of computer-assisted instruction in instrumental music, *4* 490; Individual versus paired learning of an abstract algebra presented by computer assisted instruction, *3* 353-354; An investigation into the differential effectiveness for males and females of three CAI treatments on delayed retention of mathematical concepts, *3* 354-355; Memory factors in computer-controlled maintenance training, *4* 491-492; A practitioner's report: results of two years of computer assisted instruction in drill-and-practice mathematics, *3* 354; The production and evaluation of three computer-based economics games for the sixth grade, *2* 228

Computer-directed
article: Differential relationships between personality and performance under dissimilar modes of instruction, *2* 169-179
research abstract: The analysis of essays by computer, *1* 120-121; Computer systems for teaching complex concepts, *4* 490-491; Optimum policy regions for computer-directed teaching systems, *1* 119; Pilot project on computer generated test items, *1* 120; Use of student performance data for improvement of individualized instructional materials, *3* 353

Computer systems for teaching complex concepts, Wallace Feurzeig, *research abstract, 4* 490-491

Concepts of teaching: philosophical essays, C. J. B. Macmillan and Thomas W. Nelson, eds. *Book reviewed by* Paul W. F. Witt, *4* 455-461

The conquest of nature: technology and its consequences, R. J. Forbes. *Book reviewed by* Charles F. Hoban, *2* 198-202

Continuous restricted associations to pictorial and verbal items, *article,* Frank W. Wicker, *4* 431-439

The contribution of behavioral science to instructional technology, a resource book for media specialists. *Book reviewed by* Paul Saettler, *1* 96-100

Cook, Desmond L., *book reviewer, 3* 333-335
Cronbach, Lee, and Patrick Suppes, Research for tomorrow's schools: disciplined inquiry for education. *Book reviewed* by A. W. VanderMeer, *2* 205-207
Crossan, Donna and David R. Olson, Encoding ability in teacher-student communication games, *research abstract, 1* 121
Cunningham, Donald J., *book reviewer, 3* 337-342

D

Daly, Charles U., The media and the cities. *Book reviewed by* Harold E. Hill, *4* 467-469
Davis, Robert H. *See* Dietrich, John E.
Deihl, Ned C., Development and evaluation of computer-assisted instruction in instrumental music, *research abstract, 4* 490
The design of pictures for teaching children in elementary school, *article,* Robert M. W. Travers and Victor Alvarado, *1* 47-63
The design of stimulus materials in response-oriented programs, *article,* George L. Gropper, *2* 129-159
Developing the instructional specification, Vernon S. Gerlach and others, *research abstract, 2* 221
Development and evaluation of computer-assisted instruction in instrumental music, Ned C. Deihl, *research abstract, 4* 490
The development of educational broadcasting in Japan, Mitoji Nishimoto. *Book reviewed by* Walter B. Emery, *2* 210-211
Dick, Walter. *See* Hansen, Duncan N.
Dick, Walter, and Raymond Latta, Comparative effects of ability and presentation mode in computer-assisted instruction and programed instruction, *article, 1* 33-45
Dietrich, John E., and Robert H. Davis. *Review of* To improve learning, *by* the Commission on Instructional Technology, *3* 318-322
Differential relationships between personality and performance under dissimilar modes of instruction, *article,* Kenneth Majer, *2* 169-179
Dolyatovskii, V. A. and E. M. Sotnikov, Some principles of learning and learning with the aid of machines, *research abstract, 4* 489
Drucker, Peter F., The age of discontinuity. *Book reviewed by* Frederick G. Knirk, *1* 100-103
Dwyer, Francis M., Jr., The effect of varying the amount of realistic detail in visual illustrations designed to complement programed instruction, *research abstract, 1* 122-123; An experimental study of the use of visual illustrations used to complement oral instruction on television, *research abstract, 1* 122; Exploratory studies in the effectiveness of visual illustrations, *article, 3* 235-249

E

Edling, Jack V., Individualized instruction: a manual for administrators. *Book reviewed by* Donald P. Ely, *3* 336-337
Educational evaluation: new roles, new means; the sixty-eighth yearbook of the National Society for the Study of Education, part II, Ralph W. Tyler, ed. *Book reviewed by* P. Kenneth Komoski, *2* 215-219
Educational technology—the white elephant, Andrew R. Molnar, *research abstract, 1* 119-120
The effect of auditory and visual motion picture descriptive modalities in teaching perceptual-motor skills used in the grading of cereal grains, James William Hannemann, *research abstract, 4* 493-494
The effect of creativity, response mode, and subject matter familiarity on achievement from programmed instruction, Sigmund Tobias, *research abstract, 1* 123-124
The effect of different television utilization procedures on student learning, Serena E. Wade, *research abstract, 2* 222-223
The effect of mode of feedback in microteaching, Joe E. Shively and others, *research abstract, 4* 494
The effect of a study of grammar on the writing of eighth-grade students, Nathan S. Blount and others, *research abstract, 4* 491
The effect of varying the amount of realistic detail in visual illustrations designed to complement programed instruction, Francis M. Dwyer, Jr., *research abstract, 1* 122-123

Effectiveness of the observing response with programed pictorial stimuli as a function of interstimulus interval, overtness and correctness of response, Harvey B. Black, *research abstract, 4* 496

Effects of achievement motivation and test anxiety on performance in programmed instruction, Kenneth Shrable and Julius M. Sassenrath, *research abstract, 4* 495-496

The effect of inserted questions and statements on film learning, Albert K. Kurtz and others, *research abstract, 2* 225

Effects of learner representation in film-mediated perceptual-motor learning, Sol M. Roshal, *research abstract, 2* 225

Effects on training of experimental film variables, study I: verbalization, rate of development, nomenclature, errors, "how-it-works," repetition, Nathan Jaspen, *research abstract, 2* 225-226

The effectiveness and efficiency of two types of simulation as functions of level of elementary education training, Gerald R. Girod, *research abstract, 4* 495

Eisner, Elliot W. *See* Popham, W. James

The electronic gospel: religion and media, William Kuhns. *Book reviewed by* William F. O'Neill, *1* 106-109

Ely, Donald P., *book reviewer, 3* 336-337

Ely, Donald P. *Review of* To improve learning, *by* the Commission on Instructional Technology, *3* 308-311

The emergence of film art, Lewis Jacobs. *Book reviewed by* Robert W. Wagner, *1* 110-112

Emery, Walter B., *book reviewer, 2* 210-211

Encoding ability in teacher-student communication games, Donna Crossan and David R. Olson, *research abstract, 1* 121

Engler, David. *Review of* To improve learning, *by* the Commission on Instructional Technology, *3* 315-318

Evaluation

articles: Teacher attitudes toward audio-visual instruction as they are influenced by selected factors within teaching environments, *2* 187-195; The analysis of eye-movement recordings from samples of underachieving secondary and primary students, *4* 414-424

research abstracts: The analysis of essays by computer, *1* 120-121; Chart-recorded capillary pulse pressure measurement as an unobtrusive means of detecting unspecified frame-specific flaws in programed instruction sequences: an experimental study, *3* 351; The effect of mode of feedback in micro-teaching, *4* 494; An experimental study of the degree of affective response elicited by several mediated and non-mediated instructional methods, *3* 352; Pilot project on computer generated test items, *1* 120; Use of student performance data for improvement of individualized instructional materials, *3* 353; The use of field data for improving IPI materials and procedures, *1* 119; Stimulus approach tendencies of learners as a factor in instructional materials evaluation, *3* 351-352; Pre- and posttest reactions to self-viewing one's performance on videotape, *2* 227

Evaluation activities of curriculum projects: a starting point, Hulda Grobman. *Book reviewed by* Donald J. Cunningham, *3* 337-342

Evans, Richard I. with Peter Leppmann, Resistance to innovation in higher education. *Book reviewed by* James Q. Knowlton, *1* 91-96

An experimental study of the degree of affective response elicited by several mediated and non-mediated instructional methods, Kenneth H. Silber, *research abstract, 3* 352

An experimental study of the use of visual illustrations used to complement oral instruction on television, Francis M. Dwyer, Jr., *research abstract, 1* 122

Exploratory studies in the effectiveness of visual illustrations, *article,* Francis M. Dwyer, Jr., *3* 235-249

Eye movement

article: The analysis of eye-movement recordings from samples of underachieving secondary and primary students, *4* 414-424

Facilities

articles: Comparative effectiveness of three language laboratory methods using a new equipment system, *2* 160-168; Television: Some viewer-display considerations, *3* 277-290

research abstract: A study into environmental aspects of student accommodation in

the foreign language laboratory, *3* 352-353

Feurzeig, Wallace, Computer systems for teaching complex concepts, *research abstracts, 4* 490-491

Film

articles: Film literacy, *3* 263-276; Learning a motion and a nonmotion concept by motion picture versus slide presentation, *4* 425-430

research abstracts: Commentary variations: level of verbalization, personal reference, and phase relations in instructional films on perceptual-motor tasks, *2* 224; The effect of auditory and visual motion picture descriptive modalities in teaching perceptual-motor skills used in the grading of cereal grains, *4* 493-494; The effectiveness and efficiency of two types of simulation as functions of level of elementary education training, *4* 495; The effects of inserted questions and statements on film learning, *2* 225; Effects of learner representation in film-mediated perceptual-motor learning, *2* 225; Effects on training of experimental film variables, study I: verbalization, rate of development, nomenclature, errors, "how-it-works," repetition, *2* 225-226; An experimental study of the degree of affective response elicited by several mediated and non-mediated instructional methods, *3* 352; The motion variables in film presentations, *1* 118; Structure and function in educational cinema, *3* 350; Stimulus approach tendencies of learners as a factor in instructional materials evaluation, *3* 351-352

Film in the Third Reich, David Stewart Hull. *Book reviewed by* Harry M. Geduld, *4* 476-479

Film literacy, *article,* Joan Rosengren Forsdale and Louis Forsdale, *3* 263-276
